

LEE STOFER MUSIC, INC

Your Midwestern Source for Band Instrument Repairs
Custom Work and Accessories

Brass Professional Cleaning Services

Includes minor-to-moderate dent work, and alignment of valves or handslide, precision alignment of valves, and multi-stage chemical-cleaning. Lacquered instruments are protected with a protective carnauba wax, and silver-plated instruments are completely hand-polished with the best tarnish-preventative silver polish available.

4-valve	\$325.00
Silver-plated	\$375.00
5-valve	\$350.00
Silver-plated	\$400.00

Note: My professional cleaning and servicing includes replacement of all alignment felts, bumpers and corks as necessary, springs as needed, and nylon valve guides. Fitted metal valve guides are an extra \$20.00 each. Extra charges will apply for major dent removal and replacement of missing or broken parts. There will also be an extra charge when it is necessary to repair faulty valve guide channels on a piston-valve tuba, normally \$30.00 per valve. I will do piston venting upon request as part of a full servicing, at a cost of \$15.00 per piston. Our goal is a finished product which is mechanically as near-perfect as possible, and beautiful in appearance. Removal of stuck mouthpieces is, and always shall be free of charge.

Upon request, I will do less-than-full servicing of brass instruments, as much or as little as you request. Services listed are based on a shop rate of \$75.00 per hour, which is necessary to maintain the shop and do high quality work.
